**Locked Meter:** Selecting this option means that, once the water meter is installed, you will only be billed for storm drain and irrigation (if applicable) utility base fees while the meter is locked. However, please be aware that to access services, you will need to submit a written request to Utility Billing to unlock the meter and the account will be assessed a \$15 service fee.

**Unlocked Meter:** Opting for an unlocked meter installation means that any applicable services, such as water, sewer, stormwater, ambulance, and irrigation, which are tied to the meter and the final use of the parcel, will be billed upon the installation of the water meter.
