

# Sprout Beans in a Baggie

Beans

Paper Towel

Baggie

Water

1. Soak paper towel in water and place in the bottom of a zip lock baggie.
2. Make sure beans are where they can be seen as they grow.
3. Tape baggie to window so heat will accelerate growth.
4. Add water as necessary to keep hydrated.
5. Grow until ready to plant outside, approximately 10 days.
